

Layout/Drilling Templates for D-IntuiSwitch™ Controls

Print this sheet using actual size (not Fit to Page) printer settings.
Cut templates out along blue (gray if printed in black and white) lines.
When printed correctly, the circles on the templates should be 1 1/8" diameter.

Line the template up with artwork representing track on the panel, then drill a 1" hole in the panel centered at the crosshair of the template.

Questions? email info@intuiswitch.com or phone 913-489-9033.
